We have entered an age in which education has become a necessity, without which a person is defenseless in this complex, industrialized society.

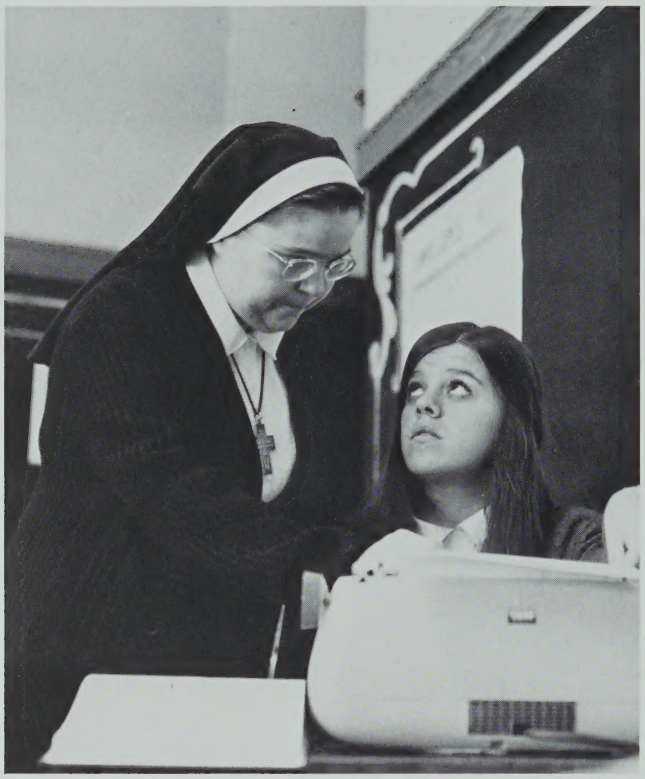
71

During the past four years we, the class of 1971, have come to understand the real meaning of the word unity: a state of oneness. We have achieved a sense of unity that has deeply touched each one of us. It is for this reason that we have chosen the flame, a symbol of lasting unity, for this book.

We have come to realize the importance of unity in this troubled world of which we are heirs. We must now attempt to convey our feelings to modern society, a society that has become impersonal and materialistic. It we wish to change society and to achieve fully the state of oneness so necessary in these troubled times, we must first break down the barriers people have built up among themselves. The most effective weapon available to us is simply understanding, an understanding based on the light of knowledge and compassion. As soon as man shows true understanding to his fellow man, all men will become one. Through the achievement of unity, the plight of the poor will be alleviated, peace and justice will reign in the hearts of men, and war will be made obsolete.

"In the end the love you take is equal to the love you make."

Dedication



We, the Class of 71, dedicate our yearbook, Stella Maris, to Sister Beatrice Gerard, S.U.S.C.

Sister Beatrice has been our homeroom teacher for two consecutive years. During this time, we have all felt the deep interest and concern she has for each one of us. Sister has always been genuinely interested in the happiness and welfare of each student with whom she has come into contact. She is an excellent teacher; the students who have benefitted from her instruction are well prepared for future careers in the business world.

We seniors, therefore, have chosen to dedicate this yearbook to her as a means of expressing our thanks. When we think back on our years at Notre Dame, we will always remember Sister Beatrice Gerard and all that she has done for us.

You're about to take a giant step forward into your future. We think we can make it the bright one you want it to be at New England Telephone. With a job that's every bit as big as your ambition. You see, we need people. With all kinds of talents. And especially, people who really want to get going with their future. And want to be rewarded with automatic raises. Your High School diploma is all the experience you need. If you want a job and a future that's tailored to your talent... along with unusually generous fringe benefits, stop in and see your guidance counselor. Ask when and where you can apply for an interview with the people who want to make your future as happy as you want it to be.

Acknowledgments

The staff of Stella Maris '70 wishes to thank all of the people who have been instrumental in getting our yearbook into print. We would particularly like to thank Mrs. Johnson of Vantine Studios and Mr. Bruce Day of Portland Lithograph Company. We would also like to show our appreciation to our photographers, Mr. Ralph Tesei and Mr. James Falconer, whose hard work and patience deserve much credit. In addition, we would like to express our gratitude to the advertisers without whom this yearbook might never have been possible. Our special thanks go to Sister Jacqueline, who put in so much time and effort to help us out.
